

Completing AINS 24—**General Insurance for IT and Support Professionals** provides you with a comprehensive awareness of the overall business of insurance. Business analysts and IT professionals who have a thorough understanding of insurance processes are better able to support critical business functions and operations by making better business decisions.

Completing the Associate in General Insurance (AINS) designation affords you with a mastery of more technical insurance knowledge.

Course Overview

AINS 24—General Insurance for IT and Support Professionals provides a general awareness of the insurance industry and is recommended for professionals who are new to supporting property-casualty insurance operations.

Bottom-Line Benefits:

- Gain a comprehensive awareness of the overall business of insurance to more ably meet the needs of insurance business functions and processes
- Increase understanding of insurance data, what is needed, why it is needed, and how it is used in the insurance process
- Develop confidence in your ability to meet insurance-specific IT needs through an overall understanding of industry terms and principles
- Sharpen your edge to advance your career in a competitive IT world

Completing AINS 24 waives AINS 21 and earns you credit toward the Associate in General Insurance (AINS) designation. AINS can be completed by selecting elective courses that match your personal and professional needs. Please visit www.TheInstitutes.org/AINS to learn more.

Course Note: Passing the AINS 24 exam satisfies the industry knowledge requirement of ACORD's Certified Expert (ACE) accreditation program. Visit www.acord.org for more information.
