During my Principles of Risk Management course in college, our professor shared that there was a 90 percent placement rating for jobs after college in the insurance industry.

After deciding to pursue a career in insurance, I started the Collegiate Studies program, which has been a very beneficial experience. I've found that it has laid the groundwork for what I am doing in my claims adjusting role and that I am far beyond what others have brought into the field.

Alyson D’Antonoli
Claims Adjuster, Amerisure Insurance

With the Collegiate Studies for CPCU program, the coursework you complete during college will waive up to two courses in the Chartered Property Casualty Underwriter (CPCU®) designation program, the insurance industry’s premier professional designation.

How You Will Benefit

- Gain valuable technical knowledge that will help jump-start your career
- Build your resume so you can set yourself apart from other job applicants
- Show your commitment to the insurance industry and your future employer
